

DRIVER MANAGEMENT ONLINE™ (DMO) ALCOHOL & DRUG TESTING THIRD PARTY ADMINISTRATION INTEGRATION

DMO is a **secure Internet application** used to centralize and manage driver records, and standardize company-wide transportation safety and compliance. Through user-based security, your company can ensure only authorized personnel access confidential results.

DMO helps you improve the workflow related to drug and alcohol testing and recordkeeping. With DMO in place, you can also automatically place and receive test information by integrating with J. J. Keller's Third Party Administration services. This gives you the confidence that your results are entered and accurate, rather than relying on manual data entry.

• WHAT DOES J. J. KELLER'S THIRD PARTY • ADMINISTRATION OFFER DMO CLIENTS?

- DMO clients who manage drug and alcohol testing through J. J. Keller's Third Party Administration Service receive the following:
 - Unlimited network of nationwide collection sites managed by J. J. Keller
 - Laboratory and Medical Review Officer (MRO) coordination
 - Test result processing and electronic interface with DMO
 - Consolidated invoice for clinic, laboratory, and MRO services
 - Consortium for DMO clients as needed
 - Dedicated account manager
 - Anytime, immediate access to status and results on your DMO home page

Since 1953

- **HERE'S HOW IT WORKS**

- If you have more than seven drivers, you can perform your random selections in DMO. With less than seven, you can participate in J. J. Keller's consortium, in which we perform the random selections. Either way, your DMO home page will notify you when a driver has been selected for random testing. Your TPA account manager will also contact you.

Your account manager will work with the collection site you choose to coordinate the testing and provide proactive management of your program. Your account manager will also coordinate the MRO services.

All test results will pass electronically into DMO and are matched to the driver. DMO will generate an e-mail to notify you that the results have been received. Results are only accessible to those employees with access granted – you control the access to sensitive employee information.

Drug Test Information		Edit...
Collection Date	6/9/2006
